LARA AL-KHAFFAF, BSc Architecture

PROFILE

Dynamic fresh graduate architect with a passion for innovative design and knowledge in architectural principles, gained through training and hands-on experience. Proficient in technical drawing, 3D modelling, and adept in design software such as AutoCAD and Revit for precise technical documentation and visual communication. Committed to contributing fresh perspectives to high-performance teams in any phase of a project lifecycle and eager to further develop skills in a professional setting.

EXPERIENCE

May 2025 – December 2025
Trainee Architect, GriDesign

London, United Kingdom

- Worked on residential project and completed drawings and plans for building control approval and construction stage.
- Took responsibility for producing detailed plan and elevation drawings using AutoCAD, referencing existing plans to create accurate, proposed layouts for renovation.
- Led the preparation of the full Building Control drawing set under supervision, consistently meeting deadlines and incorporating feedback from the lead architect.
- Produced 3D models and detailed roof designs for another residential project using SketchUp, ensuring deliverables were completed on time for client submission.
- Gained hands-on experience with real project workflows, technical drawing standards, and the iterative feedback process in a professional architectural environment.
- Assisted in the development of architectural designs, employing AutoCAD for precision in drafting plans.
- Designed technical plans and 3D models using AutoCAD and SketchUp.
- Made design and plan adjustments based on client requests, ensuring alignment with project goals and enhancing client satisfaction under the guidance of the lead architect.

May 2024 – June 2024
Trainee Architect, Diar Consult

Dubai, United Arab Emirates

- Trained at Diar Consult's Dubai head office under the direct supervision of the Chairman and Principal Design Architect.
- Did focused research and critique of existing prominent architectural landmarks and major urban hubs in the city of Dubai. As well as hands-on contextual analysis and design of a commercial and retail project located within Abu Dhabi's evolving environment.
- Focused on core principles and methodologies in professional practices within the construction industry.
- Contributed to the early development of a new project by conducting research and creating an independent concept proposal under supervision.
- Participated in internal reviews and helped prepare materials for presentation to senior officials, stakeholders, and other relevant parties to better client understanding.
- Attended client meetings alongside Chairman for ongoing residential project, gaining insight into professional client communication, project feedback, and real-world decision-making processes.

Telephone:	+44 744 541197 +962 7 9799 8316
Email:	larakhaffaf@gmail.com
Address:	Dubai, UAE
Nationality:	British/Australian (Dual) Emirati Golden Visa Holder
Date of Birth:	May 21st 2003
Gender:	Female

EDUCATION

Sept 2022 – July 2025
Bachelor of Science (BSc) Architecture
University of Reading, *United Kingdom*

Sept 2011 – June 2020
International Baccalaureate (IB) Diploma
Amman Baccalaureate School, *Jordan*
Graduated with a score of 38.

SKILLS

Architectural & Drafting:
AutoCAD, Revit, Rhino and SketchUp

Design Software:
Adobe Suite (Photoshop, Illustrator, InDesign, After Effects, Premiere Pro) and Canva

Productivity:
Microsoft Office (Word, Excel, Powerpoint)

Design & Technical:
Concept design, technical/hand architectural drawings, sketching, 3D modeling, BIM understanding and construction detailing

Soft Skills:
Strong time management, Strong written and verbal communication, creativity, problem-solving, collaborative team player, adaptability, attention to detail.

LANGUAGES

English: Fluent
Arabic: Fluent

CERTIFICATIONS

Sept 2025 – Oct 2025
BIM – Revit Architecture 2026 from Zero to Advanced Level, Amir Karami
